ACCU-PRINT™

Semi-Automatic T-shirt and Bag Printer

ADVANTAGES

- Pneumatic Squeegeelizer™ ensures uniform print pressure across entire image
- Independent squeegee/floodbar speeds
- Tool-free squeegee/floodbar pressure controls
- Single-point off-contact adjustment with “0” off-contact capability
- Universal masterframe accepts all frames
- Lock-in print head for accurate registration
- Independent, locking squeegee/floodbar angle adjustments
- Open access for easy screen viewing and setup
- Heavy-duty casters for easy shop mobility
- Dwell timer or foot pedal control
- Automatic, adjustable peel rate
- Wraparound safety bar with 4-point micro switch activation

AWT's versatile Accu-Print™ T-shirt and Bag Printer is the screen printer's choice for printing with accuracy and ease on t-shirts, cloth bags, towels, banners and other textiles. Available in two popular print sizes and with an optional high-speed indexer that can significantly increase output, allowing screen printers to access expanding markets and serve new customers.

The Accu-Print T-shirt and Bag Printer features an adjustable stroke length and a universal masterframe that securely locks into place for precise registration and outstanding print repeatability. A motor-driven carriage ensures a smooth print stroke. Tool-free squeegee and floodbar pressure adjustment is standard, and AWT's patented Squeegeelizer™ assures uniform print pressure across the entire squeegee blade, delivering consistent tone throughout the image.

The quick-release Stay-Flat™ aluminum pallet is heat- and warp-resistant, extremely durable, and built to last a lifetime. Hundreds of optional specialty pallets are available for printing on an extensive range of garments and promotional products.

ACCU-PRINT™

Semi-Automatic T-shirt and Bag Printer

Standard Features

- Aluminum Stay-Flat™ pallet with heat resistant rubber surface
- Lock-in print head
- Independent squeegee/floodbar angle adjustments
- Tool-free squeegee/floodbar pressure controls
- Independent squeegee/floodbar speed controls
- Patented quick release pallet system
- Single point off-contact adjustment
- Automatic adjustable peel
- Automatic Squeegeelizer™
- Universal masterframe
- Safety package with 4 U.L.-approved micro sensors
- 120V, 1Ph, 60Hz

Aluminum Stay-Flat™ “quick-release” pallet with heat resistant rubber surface.

Options

- Pneumatic front or rear clamps — provide smooth, instant frame locking
- Wing tip floodbar — captures ink for greater efficiency and easier clean up.
- 220V, 1Ph, 50Hz electrical conversion

Pneumatic “Squeegeelizer” automatically adjusts for uniform squeegee pressure.

Operator-friendly control panel.

Specifications
