

TORNADO™

Ink Mixer and Color Blender

Tornado shown on optional stand.

Ideal for in-plant operations

Safety Option

Tornado shown on optional stand and with optional safety screen

Containers not included.

Advantages

- For color matching, adding pigments or other blending, the Tornado saves time by mixing in your original container
- New design accepts the full range of U.S. and international container sizes that range from one quart to five gallon (1 liter to 25 liters)
- Reliable solid-state controls
- Easy changeover of mixing blades
- Adjustable blade height prevents blade from scraping bottom of container
- Reversible mixing direction
- Variable speed control
- Tool-free locking levers for quick job changeover
- Self-centering locking feature

A.W.T.'s Tornado™ is ideal for mixing matched colors, adding pigments such as glitter or fluorescent color to bases, and for assuring proper blending of reducers and other modifiers. The unique design of the Tornado saves time by mixing in the original container. A Vertical adjustment prevents the blade from scraping the bottom of the container. Adjustable self-centering locking clamps on the turntable accommodate both metal cans and plastic containers. Special blade configurations provide gentle but thorough mixing without splash-up or air bubbles. Blades simply slide on-and-off for easy changeover between container sizes. An up-front solid-state control panel features a variable speed control and reversible turntable direction.

Tornado™ Ink Mixer and Color Blender

Standard Features

1. Solid-state DC controls
2. Variable speed control from 2-45 RPM
3. Vertical blade adjustment
4. Mixing direction reversing switch
5. Self-centering clamping feature
6. One 1-Gallon and one 5-Gallon mixing blade

Quart, gallon, 3.5 gallon and 5 gallon blades

The optional stand places the Tornado at a convenient working height.

Optional Features

- Gripper assembly for tapered containers
- Quart or 3.5 Gallon blades
- Stand (with or without shelf)
- Safety Screen

RANGE OF CONTAINER SIZES:

Minimum:

1 quart (1 Liter)
Diameter: 4.5" (11.4 cm)

Maximum:

5 gal (25 Liters)
Diameter: 14" (35.5 cm)

Any machinery with moving parts is a potential hazard. The optional safety screen ensures hands and foreign objects are kept away from the rotating turntable. The opening at the front of the screen and the flip-open side/top, however, still provide easy access to the Tornado control panel and your mixing container.

CAT. NO.	DESCRIPTION	ELECTRICAL	HP	AMPS
IM-10	Ink mixer with one 1 gallon and one 5 gallon mixing blade	115 V, 1 Ph, 60 Hz	1/3	3.5
