

VIBRA-JOG™

Jogger Unit

ADVANTAGES

- Increases output and improves quality
- Reduces labor costs
- Decreases rejects, waste, and damage
- Fast setup; easy to use
- Multi-position tilting table for a variety of operations
- Adjustable sheet positioner accommodates a wide range of stock
- Optional brush transfer system
- Heavy-duty construction for years of reliable service

The Vibra-Jog™ Jogger Unit from AWT World Trade helps users to improve material handling operations and reduce labor costs. This unique and highly versatile unit stacks stock in small piles which are easy to handle, process, pack, and ship.

Equipped with a multi-position tilting table, the Vibra-Jog is easy to set up and features adjustable guides that accommodate a variety of stock.

Vibra-Jog units are constructed of heavy-duty materials for durability and consistent performance, and mounted on casters for mobility and convenience. The optional brush transfer system allows lightweight sheets to be smoothly moved from the conveyor to the jogger unit for increased production and greater efficiency.
